

*“Habia Teknofluor shall be an excellent working organisation that strives to fulfil the customers demand and expectations.”*

This means:

- The work of continuous improvement is a natural part of our whole organisation. Established goals, regularly followed up, functions as support in this work.
- Every co-worker shall take the full quality responsibility for their own job assignments as well as for their specific job field.
- Every co-worker shall have knowledge about, and work towards fulfilling, the demands and expectations from both internal and external customers.
